1. The following is an examiner's statement of reasons for allowance: None of the prior art of record either alone or in combination discloses the combination in the independent claims specifically the hooking piece with peaks a greater distance than any points on the hooking piece relative to the center line.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Andrews teaches bent peaks at a distance greater than any points on the rest of the hooking piece but the hooking piece is not pressed into any groove in the inner periphery of a semi circular plate. Huang teaches a hooking piece but the bent peaks are not further apart than any points on the hooking piece.
